16. Miscellaneous Comment

Change Applications are being submitted to change the place of use and point of diversions to the following Permitted and Certificated water rights. The proposed place of use will be the same location for all the change applications listed below. The applicant requests a combined duty term to allow co-mingling of the water rights, as these rights will have a communal piping system with the same place of use. It is requested that a seasonal duty of 4.0 acre feet per acre to irrigate a total of 615.6 acres within the proposed place of use be granted.
